

Dove, Inc., the domestic violence agency and shelter based in Norfolk County, is seeking auction items for its “Harvesting Hope” fund-raiser in the fall.

This event commemorates the agency’s 30th anniversary of serving victims and survivors of domestic violence throughout all of Norfolk County.

Proceeds help support DOVE’s domestic violence services and programs.

According to DOVE Executive Director Stephanie Flaherty, domestic violence has escalated in the state over the past couple of years. Massachusetts saw a 287% increase in deaths related to domestic violence in 2007 compared to 2005.
